

T H E A E R O R A N G E

Prices and Options. Effective from 1st April 2012

The Aero Range defines a new automotive trend..... lightweight luxury.

The processes used to make an Aero vehicle are environmentally sustainable, as are the materials and construction methods. This combined with a virtually infinite range of colour and trim combinations, extensive options list and the latest in automotive on road technology, creates a truly unique car of the highest aesthetic and scientific standards.
