

Further to decisions taken in January of this year, Morgan Technologies is now in a position to announce that Charles Morgan is no longer part of the management team or Board of Directors of the company.

Over recent months, and in response to the growth in volumes, model range and overseas markets, the company structure has been strengthened across a number of different areas. This reflects the scale and complexity of an increasingly global business.

Whilst these are significant developments for the company, the Morgan family, Directors and management team look forward to sharing more news with the wider Morgan community in the near future.

These changes will help cultivate an exciting future for Morgan which continues to reinforce the unique attributes of the brand.

Board of Directors.

The Morgan family recognises the management contribution that Charles has made to the family business as Strategy Director, and confirm that he remains a shareholder.

However, to ensure continuing success, Morgan must look to strengthen and review its strategies, and acknowledge that our management team are better placed to steer the company in the future. We wish to thank our past, present and future customers for supporting our craftsmen & women, and for ensuring that our unique family owned business succeeds for another 100 years.
